PROFESSIONAL SUMMARY

With diverse and extensive experience spanning accounting, procurement, and sales, I've embarked on a transformative journey into software development. Graduating from the Generation Thailand bootcamp, I've gained comprehensive knowledge encompassing both front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, MongoDB, and SQL. My proven track record demonstrates adaptability and a continuous learning mindset. I am poised to leverage my diverse skill set to excel in software development. Ready to embrace new challenges, I am committed to applying my multifaceted skills to innovate and drive software solutions forward.

SKILLS

Technical Skills

- Front-end Development: HTML, CSS/Tailwind JavaScript, React
- Back-end Development: Node.js, Express
- Database Management: MongoDB, SQLite
- Other: Figma

behavioral skills

- Growth mindset
- Problem Solving
- Team work
- Communication

EDUCATION

Junior Software Developer Bootcamp Cohort 6

Generation Thailand and KX Knowledge KMUTT

Nov 2023 - Feb 2024

- Fundamental Education in HTML, CSS, and JavaScript: Focused on creating dynamic and responsive user interfaces. Proficient in React for developing scalable and efficient front-end applications with responsive design capabilities.
- Comprehensive Understanding of Node.js and Express.js: Enables the development of robust and high-performance web servers. Knowledgeable in Node.js and Express.js for server-side development.
- Extensive Training in MongoDB and SQL: Wide-ranging training in MongoDB for NoSQL database management, including data modeling and querying techniques. Proficient in SQL for relational database management, covering database design, querying, and optimization strategies.
- Final Project : I.MOVE
 - fitness tracking web app built with React, TailwindCSS, Node.js, Express, and MongoDB. It helps users manage their workout data and engage with a fitness community. Developed collaboratively using Git.
